

## About the Program

Technicians for North America is an absolutely free online program for people seeking a new and exciting career as a service technician. Technicians for North America is sponsored by Caterpillar, the global leader in construction and mining equipment. Caterpillar has created this curriculum using courses from the Caterpillar University Global Service Technician Training program. So you know it's good!

If you fall into any of the following 3 categories, this certificate program may be right for you!

### For the curious:

If you have no previous education or knowledge in this field but are curious to know if it's right for you, this is a great way to find out.

### For the vocational student:

If you are a student in a vocational school pursuing a technical diploma this is a great way to expand your knowledge and add to your resume.

### For existing technicians:

If you're an existing technician interested in getting basic training developed by Caterpillar to improve employability, this may be the perfect solution.

**Whatever your motivation...** in just 3-6 months you can achieve your Certificate of Completion—a milestone that has value to you as an important step in your pursuit of a career as a service technician.

Best of all, it's easy to enroll and begin your journey! All the courses are virtual (computer-based). You can take the courses everywhere you have a decent Internet connection using your personal computer, laptop or mobile phone. And, you can take the courses anytime, day or night. Whatever fits your schedule.

By completing these courses you'll learn the basics of diesel engines, electricity, hydraulics, power train and much more.

The curriculum consists of 18 courses: four Introductory courses, ten Level 1 courses and four Level 2 courses. You'll find the courses interesting and compelling with lots of interactivity and animation. Completion time is estimated to take approximately 3-6 months. (Yes. That's right. It's comprehensive. This is the real deal and you'll need to work hard but the results could be well worth the effort.)

Once you successfully finalize the program you will be able to print out a Certificate of Completion. You can use it in the market place to improve your chances of landing a technician's job in the auto industry, the trucking industry or the heavy equipment field. And you can use it to help gain entry into a leading vocational school.

Go ahead! click the Get Started button and begin your journey to an exciting and successful career as a qualified Service Technician!
